WHAT IS STUDIED AS AN ADVANCED STUDENT?

Whatever research topic the student proposes and is approved.

You must have attended and passed the first year course to be considered for the advanced course.

This is also a graded course, worth ½ credit.

How many staff members go...

No fewer than 10

How many students attend...

First year: up to 24 students

***If there are more applicants than spaces, a lottery is run with the applications that were turned in on time (grade level may also be considered)**

The application/contract contains all logistical info such as cost. It can be picked up from any science teacher, outside of room S210 in the science center, or in Student Services. It will not be provided digitally.

Applications are due February 8th!

Completed applications can be returned to student services or any EHS science teacher.
